Indian Palms HOA

TURF

Mowing – Mowing height will remain the same until the over-seeding process begins.

Fertilization – No fertilization is scheduled for the month of August.

Herbicide – Monument application to treat for nutsedge will be completed in August.

SHRUBS

Focus Pruning – Normal maintenance pruning will be our focus and the avoidance of pruning heat sensitive shrubs.

Plant Replacement – Plant replacements will be done on a per work order basis with managers approval.

TREES

Scheduled Trimming – Palm pruning was completed in July. No pruning scheduled for August.

AUGUST 2020 HIGHLIGHTS

Notes:

* The extreme heat of July continues in August. High temperatures are hard on landscapes and landscape workers.

Provide adequate irrigation. Check irrigation daily to be sure systems are functioning properly.

Limit fertilization on turf. Apply herbicides for nut sedge and broadleaf weeds. Aerate turf where possible.

Limit pruning of shrubs. Monitor for pests and treat if necessary.

Annual flowers will need lots of water. Monitor for pests.
